The schedule will state the times within which articles will be required to be delivered; and where the printest schedule is not used the periods stated in it for deliveries must be copied in the bids. All the articles which may be contracted for must be delivered at such place or places, including dravage and cartage to the place where used within the navy-yards, respectively, for which the otier is made, as may be directed by the commanding officer thereof; and, all other things being equal, preference will be given to American manufacture. No article will be received after the expiration of the period specified in the schedules for the completion of deliveries, unless specially authorized by the department.

It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount and number of articles enumerated in classes headed "miscellamoous" are specified at the protofol quantity which may be required, as well as to ix data for determining the lower bid; but the contractor is to furnish more or less of the said enumerated articles, and is made quantities, and as such fines, as the birrous or consumdant may require; such increase, however, not to exceed one-third of the quantities stated, (and requisitions son through the post office shall be deemed sofficient notice) during the facal year ending 30th June, 1858; and whether the quantities required be more or less than those specified the prices shall remain the same.

All the articles under the contract must be of the best quality, delivered in good order, free of all and every charge or expense to the government, and subject to the inspection, count, weight, or measurement of the said navy-yard, and be in all respects satisfactory to the commandant thereof. Bidders are referred to the yard for plans, specifications, or samples, and any further description of the articles. Contractors for classes headed "miscellamous," to be delivered will be req

and, if they do not enter into contract for the supplies specified within fifteen days from the date of notice from the bureau of the acceptance of their bid, a contract will be made with some other person or per-sons, and the guarantors of such defaulting bidser will be held respon-sible for all delinquencies. All offers not made in ariset conformity with this advertisement will, at the option of the bureau, be rejected.

Those only whose offers may be accepted will be notified, and con-tracts will be ready for execution as soon thereafter as may be prac-ticable.

May 2-law4w

## Washington Aqueduct.

Office of the Washington Aqueduct, Washington, March 5, 1867. PROPOSALS are invited for materials and work for the Washington aqueduct.

Proposals received up to 7th May will be opened at noon of that land

Proposals received up to 7th May will be opened at noon of that day.

Mans, profiles, and specifications of the materials and work to be let will be ready for examination at this office on and after the 20th April next.

The work to be let will embrace masonry of some of the bridges, graduation, executation, and embankment of reservoirs, fron pipes connected with the reservoirs, 12-inch iron main, gate houses, bricks, sand, rubble, and out stone, &c.

For the particular works and materials reference is made to the specifications and plans.

As upon a portion of the line the titles are not yet acquired by the United States, there may be some delay in commencing the work thereon; but for such unavoidable delays due allowance will be made in the time of completion.

Portions only of some of the works can be completed under the present appropriation; but all contracts for unfinished work will be abeject to father appropriations by Congress. The engineer reserves the right to prescribe the amount of work to be done and rate of progress under each contract for each appropriation and in case of the appropriation and holding out sufficiently, to decide when and what works shall be stopped until funds become available.

In case of the entire stoppage of any particular work for want of funds, the reserved ten per cent, will be paid, if, in the judgment of the engineer, the work has been properly executed so far as it has gone.

Payments will be made in specie checks upon the United States.

the engineer, the work has been properly executed so far as it has gone.

Tayments will be made in specio checks upon the United States treasury upon the meathly estimates of the engineer, reserving 10 per cent; and it will be a condition of all contracts that the workmen shall be paid their full wages monthly, and in specie.

All bids should be scaled, and endorsed "Proposals for work or materials on the Washington Aqueduct."

The United States reserves the right to reject any or all the bids should they not be deemed advantageous, and to make such arrangements as may be considered most conducive to the progress of the work.

Every offer must be accompanied by a written guarantee, signed by one or more responsible persons, to the offect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation, within ten days, with good and sufficient accurities, for the completion of the work undertaken; axid guarantee to be accompanied by the certificate of the United States district attorney, navy sgent, or some officer of the guarantee.

Bids will be opened in presence of bidders, if any of them choose to be present.

Capt. of Engineers, in charge.

The FREIERICK TRAIN starts at 4, p. m. (except Stunday,) should at way stations. Leaves Frederick at 9, a. m., arriving at Baltimore

MOUNT WASHINGTON FEMALE COLLEGE, near Baltimores.—The summer session of this fourishing institution, located at Mount Washington, six miles out on the Northern Central railroad, and chartered by the Maryland legislature, will open on the first Wednesday in May, 1857, with a full faculty of experienced instructors, consisting of five gentletuva and several ladies. This college is all that could well be desired for the purposes of a finished fornale education. No pains or expenses have been spared to make it what it ought to be in all respects. The locality is highly salisbrions and picturesque, and has been selected as one of the most inestration in the State. The shady and beautiful grounds afford ample scope for pleasant walks and healthful recreation. The building is a large, imposing brick, edifice, (erected expressly for a first-class female college,) thoroughly ventilated, lighted with gas, handsonely furnished, water cupplied to each story, and has accommodations for about 100 hoarders. The establishment is very conglete, costing as less than 440,000. During this the first year of its operation, it must be for a former of the first pair of the o

March 14—Sat&Wed6w President of the Board of Visiters. UNITED STATES NAVAL COURT OF INQUIRY, Washington, February 26, 1857. Washington, February 25, 1881.

THE judge advocate gives notice, for the information of parties coming before the court under the lat section of the act of January 16, 1857, that they will respectively be advised by the department when their cases shall have been referred to the court; and that it is desirable that in presenting themselves they should come prepared with a list of such witnesses as they may desire to have summoned, specifying to which of the respective beats of "fitness for the naval service" mentioned in the act their testiment, is to be applied respectively; and suggesting the felay, if say, which may be required; and in respect of what witnesses.

J. M. CARLISLE, Jodge Advocate.

MPORTANT TO COTTON PLANTERS, by which their incomes must be doubled—The undersigned has inventors and obtained letters gatent from the United States for the arrangement and combination of smelmery for converting seed contention yarms by one continuous process, from the gin through the ratious preparation and spinning machinery, until it is ready for ship ment or weaving.

The saving from waste by this process will be at least ton per cent, and yarms made from the Shre (unberdeen and uninjured by the operations of the machinery of the prepent process used to open and decentangle it) will be about fifty per cent, stronger and heavier, and will command the markeds of the world, distanging all competition of advanced priors.

The underesigned is prepared to diagons of privileges to use his possent; and planters will be informed as to terms, with complete information by the open processory particulars, on application and advanced to Dec 6—2awlyif
